

FADEL AND ORACLE—AN END-TO-END SOLUTION

- ◆ Accelerated asset discovery and clearance
- ◆ Flexible Cloud-based Model
- ◆ Faster time-to-market with less compliance risk

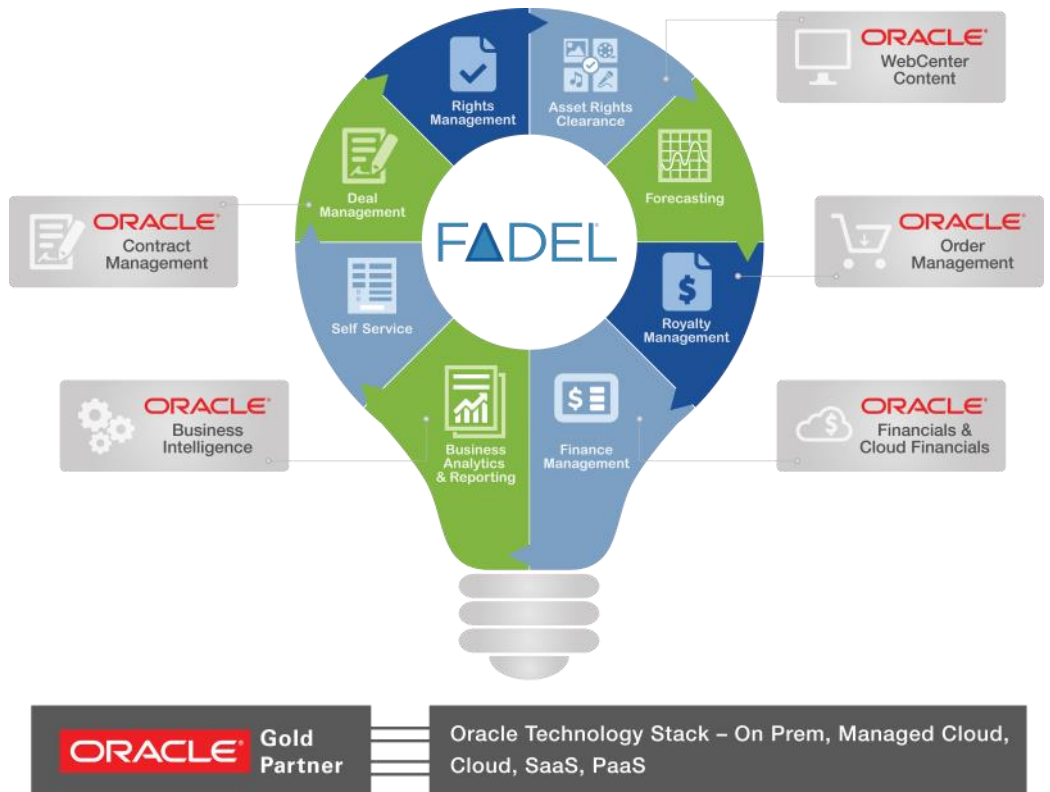

FADEL, an Oracle Gold Partner

FADEL® is a provider of enterprise-class Intellectual Property Rights and Royalty Management software for Media, Entertainment, Publishing and High Tech. Built on a robust and adaptable architecture, FADEL Intellectual Property Management (IPM) Suite has been recognized for its end-to-end capabilities across the IP licensing lifecycle – from negotiation to payment.

Seamless Integration with Oracle Technologies

FADEL IPM Suite empowers end-to-end IP Management from agreement to reporting to financials. The only software of its kind to tightly integrate with Oracle ERP applications such as Cloud Financials, Order Management and Oracle Contract Management, IPM Suite will automate, streamline and manage rights and royalties across the IP lifecycle, whether on-premise or "Fusion" cloud-ready.

"FADEL's IPM software was a driving factor in our ERP platform selection. No one else offered a royalty system that could handle our expanding business and integrate seamlessly with Oracle."

- CFO, Chronicle Books

Helping organizations to manage every aspect of their intellectual property licensing operations, the integrated FADEL and Oracle solution will:

- Extend Oracle Contract Management to manage inbound/outbound rights and royalties associated with licensed IP and ensure contract compliance
- Calculate and manage the financial results of your agreements based on incoming sales and usage data – calculating inbound and outbound royalties, generating statements and automating payments directly through to Oracle Financials and Cloud Financials
- Consume Oracle Order Management data associated with the components and parts that are tied to contracts and royalties
- Integrate natively with Oracle Business Intelligence to provide full visibility and analytics across the enterprise
- Underpinned by a full Oracle technology stack on premise or PaaS

Award-Winning Recognition

- **2013 Oracle Excellence Award Winner for Media, Entertainment and Communications** – FADEL was recognized as Specialized Partner of the Year – North America for its IP Rights and Royalty Management solution and its seamless integration with Oracle products
- **2012 Oracle Excellence Award Winner for Media, Entertainment and Communications** – Recognized for an exceptional solution that integrated FADEL IPM Suite with Oracle E-Business Suite, Universal Content Management (Stellent), Agile PLM and 3rd party suppliers via XML for a full Rights and Royalty management and costing solution
- **2009 Oracle Titan Award Finalist** for Service Oriented Architecture
- **2007 Oracle Titan Award Finalist** for Service Oriented Architecture
- **2006 Oracle Titan Award Winner** for Industry Solutions
- Exclusive North America Applications Partner for the Media, Entertainment & Publishing industries
